1. Introduction

The Data Protection Act (DPA) 2018 controls how your personal information is used by organisations, businesses or the government.

Everyone responsible for using personal data has to follow strict rules called 'data protection principles'. They must make sure the information is:

- used fairly, lawfully and transparently
- used for specified, explicit purposes
- used in a way that is adequate, relevant and limited to only what is necessary
- accurate and, where necessary, kept up to date
- kept for no longer than is necessary
- handled in a way that ensures appropriate security, including protection against unlawful or unauthorised processing, access, loss, destruction or damage

The DPA 2018 is the UK's implementation of the General Data Protection Regulation (GDPR).

This Fair Processing Notice (FPN) has been written in line with the DPA 2018.

2. What is this Fair Processing Notice about?

Fair processing is the conditions which have to be met for any activity involving personal data or special categories of personal data to be lawful. Being transparent and providing accessible information to individuals about how an organisation will use their personal information is a key element of Data Protection Legislations. The most common way to provide this information is in a Fair Processing Notice (FPN).

This FPN is part of our programme to make the data processing activities we are carrying out in order to meet our healthcare obligations transparent.

The FPN tells you about information we collect and hold about you, the legal basis for collecting and holding the information, what we do with it, how we keep it secure (confidential), who we might share it with and what your rights are in relation to your information.

3. Who we are

Camden Health Evolution Limited GP Federation. We are a company limited by shares with all of our 17 member GP practices as our Shareholders. We provide support and economies of scale to our practices and our key priorities are to

- ✓ To support the autonomy of equitable, high quality, sustainable General Practice
- ✓ To improve health outcomes, reduce health inequalities & ensure effective use of resource to the residents of Camden
- ✓ To provide strong leadership and a collective voice for Primary Care within the wider health & social care system
- ✓ To be a leading partner in the development of integrated care networks with local patients & providers and to ensure that these changes meet the needs of our patients
- ✓ To develop the core stability of our Primary Care Networks & Practices through infrastructure support

4. Types of information we use

We use the following types of information/data:

- Personal data or sensitive personal/special categories of personal data such as:
 - demographics – name, address, date of birth, postcode, NHS number
 - racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data, biometric data for the purpose of uniquely identifying a natural person, medical/health data, sexual life or sexual orientation data.
- Pseudonymised - about individuals but with identifying details (such as name or NHS number) replaced with a unique code.
- Anonymised - about individuals but with identifying details removed.
- Aggregated - anonymised information grouped together so that it doesn't identify individuals.

5. What we use your personal data and special categories of personal data (known as or sensitive personal) for

We use and share information about you in a number of ways. These include:

Primary uses - information from your GP medical record which can be made available to other NHS and public sector organisations, including doctors, nurses and care professionals in order to help them make the best-informed decision, and provide you with the best possible direct care delivery.

Secondary uses - information from your GP medical record involves extracting identifiable data and (usually) sharing that data with other NHS organisations, for the purpose of indirect care. Examples include using your information for [research](#), auditing, and healthcare planning (population health management).

6. Identity and Contact details of the Data Controller and Data Protection Officer

Dr Daniel Beck
Camden Health Evolution Limited
2 Winchester Mews
London
NW3 3NP
che.group@nhs.net
0207 722 2772

7. Organisations we share your personal information with

We share information about you with other GPs, NHS acute or mental health Trusts, local authority, community health providers, pharmacists, commissioning organisations, medical research organisations and some specific non-NHS organisations for the purposes of direct and indirect care delivery of care.

We are required under the law to provide you with the following information how we process your personal data, the purpose of processing, recipient/categories of your personal data, the identity of our Data Protection Officer (DPO), how long we retain personal information about you, the legal basis and justification for the processing, and your right to view, request access copies of your personal information, or object to the processing.

Included below is a table of the organisations we share information about you with split into the following categories. **In all cases, the data controller and Data Protection Officer (DPO) are as listed in section 6 above:**

a.	Direct Medical Care and Administration	6
b.	Other Primary Care Services Delivered for the Purposes of Direct Care	13
c.	Statutory Disclosures of Information	16
d.	Processing for the Purposes of Commissioning, Planning, Research and Risk Stratification ...	27
e.	Data Sharing Databases	31
f.	Data Processors	37

a. Direct Medical Care and Administration				
Recipients or categories of recipients of the personal or special categories of personal data	Purpose of the processing	Data Retention Period	Lawful basis General Data Protection Regulation - Article 6 - - Article 9 -	Your Rights

<p>"Risk Stratification" (Population Health Management and Case Finding)</p> <p>Recipient: North Central London CCG (NCL CCG)</p>	<p>Camden Health Evolution Limited performs computerised searches of some or all of our records to identify individuals who may be at increased risk of certain conditions or diagnoses i.e. Diabetes, heart disease, risk of falling). Your records may be amongst those searched. This is often called "risk stratification" or "case finding". These searches are sometimes carried out by Data Processors who link our records to other records that they access, such as hospital attendance records. The results of these searches and assessment may then be shared with other healthcare workers, such as specialist, therapists, technicians etc. The information that is shared is to enable the other healthcare workers to provide the most appropriate advice, investigations, treatments, therapies and or care.</p> <p>Risk stratification can be grouped into two purposes namely:</p> <p>Direct Care – 'Case Finding' where carried out by a health professional (e.g. GPs and Provider)</p>	<p>All records held by the Practice will be kept for the duration specified in the Records Management Codes of Practice for Health and Social Care</p>	<p>The processing of personal data is permitted under the following paragraphs:</p> <p>Article 6(1) (e) - public interest or in the exercise of official authority.</p> <p>The processing of special categories of personal data concerning health is permitted under the following paragraphs</p> <p>Article 9 (2) (h) - processing is necessary for medical or social care treatment or, the management of</p>	<p>You have the right to:</p> <ul style="list-style-type: none"> To access, view or request copies of your personal information; request rectification of any inaccuracy in your personal information; restrict the processing of your personal information where: <ul style="list-style-type: none"> ✓ accuracy of the data is contested, ✓ the processing is unlawful or, ✓ where we no longer need the data for the purposes of the processing. <p>Right to object: You have a general right to raise an objection to your personal data being shared with the recipient.</p> <p>If you wish to exercise any of your rights, please contact the Practice (data controller) or the DPO and your request will be carefully considered.</p> <p>Right to complain: If you are dissatisfied with the way Camden Health Evolution Limited processes your data, you have the right to appeal/complain</p>

<p>Risk Stratification: North East London Commissioning Support Unit (NEL CSU)</p>	<p>Camden Health Evolution Limited performs computerised searches of some or all of our records to identify individuals who may be at increased risk of certain conditions or diagnoses i.e. Diabetes, heart disease, risk of falling). Your records may be amongst those searched. This is often called "risk stratification" or "case finding". These searches are sometimes carried out by Data Processors who link our records to other records that they access, such as hospital attendance records. The results of these searches and assessment may then be shared with other healthcare workers, such as specialist, therapists, technicians etc. The information that is shared is to enable the other healthcare workers to provide the most appropriate advice, investigations, treatments, therapies and or care.</p> <p>Risk stratification can be grouped into two purposes namely:</p> <p>Direct Care – 'Case Finding' where carried out by a health professional (e.g. GPs and Provider)</p>	<p>All records held by the Practice will be kept for the duration specified in the Records Management Codes of Practice for Health and Social Care.</p>	<p>The processing of personal data is permitted under the following paragraphs: Article 6(1) (e) - public interest or in the exercise of official authority.</p> <p>The processing of special categories of personal data concerning health is permitted under the following paragraphs Article 9 (2) (h) - processing is necessary for medical or social care treatment or, the management of health or social care systems and services</p>	<p>You have the right to:</p> <ul style="list-style-type: none"> • To access, view or request copies of your personal information; • request rectification of any inaccuracy in your personal information; • restrict the processing of your personal information where: <ul style="list-style-type: none"> ✓ accuracy of the data is contested, ✓ the processing is unlawful or, ✓ where we no longer need the data for the purposes of the processing. <p>Right to object: You have a general right to raise an objection to your personal data being shared for the purpose of risk stratification.</p> <p>If you wish to exercise any of your rights, please contact the Practice (data controller) or the DPO and your request will be carefully considered.</p> <p>Right to complain: If you are dissatisfied with the way Camden Health Evolution Limited process your data, you have the right to appeal/complain to the</p>

	<p>involved in an individual's care or by a data processor acting under contract with such a provider, it is treated as direct care.</p> <p>Indirect Care - understand the local population needs and plan for future requirement.</p> <p>The source of the information shared in this way is your electronic GP record.</p>		<p>Related Legislation:</p> <p>Section 251 NHS Act 2006</p>	<p>Information Commissioner (IC). 8. What is EMIS Systems Local Record Sharing?

Your GP medical record is held on our secure clinical system called EMIS Web. This clinical system allows for local record sharing with other healthcare providers who are commissioned in your area to provide care (e.g. acute hospitals, mental and community health). Through this record sharing, clinicians are able to see clinical information entered by other organisations who are party to the EMIS local record sharing agreement.

This local sharing is used to provide direct patient care for services such as continued extended access, home visits, universal offers, musculoskeletal service, GP at front door and other neighbourhood services across Camden in line the local Care delivery strategy and the NHS STP.

It also enables specific GPs identify their patients with highly complex, multiple morbidity and/or frailty, who might benefit from targeted multi-disciplinary team support as part of case management and care planning (the "Case Finding Purpose").

How will my information be made available?

The information is accessed in real time and on-demand, meaning that data from your GP record is neither extracted, nor uploaded, nor sent anywhere. The data remains within your GP EMIS database and users are allowed read-view access only. If you have any concerns regarding EMIS local record sharing you can opt out by speaking to your GP Practice.

9. What do we use anonymised data for?

We use anonymised data to plan health care services. Specifically we use it to:

- check the quality and efficiency of the health services we provide;
- prepare performance reports on the services we provide and,
- review the healthcare we provide in order they are of the highest standard.

10. Details of data linkage with other datasets

Data may be de-identified and linked so that it can be used to improve health care and development and monitor NHS performance. Where data is used for these statistical purposes, stringent measures are taken to ensure individual patients cannot be identified.

When analysing current health services and proposals for developing future services it is sometimes necessary to link separate individual datasets to be able to produce a comprehensive evaluation. This may involve linking primary care GP data with other data such as secondary uses service (SUS) data (inpatient, outpatient and A&E). In some cases there may also be a need to link local datasets which could include a range of acute-based services such as radiology, physiotherapy, audiology etc, as well as mental health and community-based services such as Improving Access to Psychological Therapies (IAPT), community nursing, podiatry etc. When carrying out this analysis, the linkage of these datasets is always done using a unique identifier that does not reveal a person's identity.

The organisation responsible for processing de-identified and linked data under this category, on behalf of the Practice is North Central London CCG (NCL CCG). We ensure that the data processor is legally and contractually bound to operate and prove security arrangements are in place where data that could or does identify a person are processed.

11. What safeguards are in place to ensure data that identifies me is secure?

We only use information that may identify you in accordance with the DPA 2018. This legislation requires us to process personal data only if there is a lawful basis for doing so and that any processing must be fair and lawful.

We also ensure the information we hold is kept in secure locations, restrict access to information to authorised personnel only, protect personal and confidential information held on equipment such as laptops with encryption (which masks data so that unauthorised users cannot see or make sense of it).

Our appropriate technical and security measures include:

- The ability to ensure ongoing confidentiality, integrity, availability and resilience of our systems;
- the ability to quickly restore availability and access to personal information in the event of a physical or technical incident; and
- a process regularly testing, assessing and evaluating the effectiveness of security measures, and ensure they comply with the concept of privacy by design and default.

The [NHS Digital Code of Practice on Confidential Information](#) applies to all of our staff, and they are required to protect your information, inform you of how your information will be used, and allow you to decide if and how your information can be shared. All Camden Health Evolution Limited staff are trained to ensure information is kept confidential.

We are registered with the Information Commissioner's Office (ICO) as a data controller and collects data for a variety of purposes. A copy of the registration is available through the [ICO website](#). You can search by our Federation name or ICO Data Protection Register number ZA449969.

12. What are your rights?

Where information from which you can be identified is held, you have the:

- Right of access to view or request copies of the records
- Right to rectification of inaccurate personal data or special categories of personal data
- Right to restriction of the processing of your data where accuracy of the data is contested, processing is unlawful or where we no longer need the data for the purposes of the processing
- Right to object to any automated individual decision-making
- Right to data portability by requesting the data which you provided to us (not data generated by us) in a structured, commonly used machine-readable format. Your right to portability applies only where:
 - data is processed by automated means, and
 - you provided consent to the processing or,
 - the processing is necessary for the fulfilment of a contract

These rights will only apply where we cannot demonstrate compelling legitimate grounds for continued processing of your personal data for the purposes of direct provision of care, and compliance with a legal obligation to which we are subject.

Your right to erasure (right to be forgotten) will only apply where you had given 'consent' to process your personal health data and later withdrew the consent, **and does not apply to the extent** where the processing of your personal health data is necessary for:

- [Compliance with a legal obligation which we are subject to, under the UK law or, for the performance of a task carried out in the public interest or, in the exercise of official authority vested on us;](#)
- [medical purposes and/or for reasons of public interest in the area of public health; archiving purposes in the public interest, scientific or historical research purposes or statistical purposes;](#)
[the establishment, exercise or defence of legal claims](#)

You can exercise your rights at any time by contacting the Practice (data controller) or the Data Protection Officer (DPO) at the address below, although we will first need to explain how this may affect the care you receive and any overriding legitimate grounds for the processing that may apply.

13. Gaining access to the data we hold about you

You have the right to see or have a copy of personal data we hold that can identify you. You do not need to give a reason to see your data. However, some information may be withheld under some exceptional circumstances.

If you want to access your personal information you must do so in writing by **completing our**

Subject Access Request (SAR) form which you can download from our website:

<https://www.camdenhealththevolution.nhs.uk/privacy>

Once completed, please send to:

Camden Health Evolution Limited
2 Winchester Mews
London
NW3 3NP

Or email to che.group@nhs.net

14. What is the right to know?

The Freedom of Information Act 2000 (FOIA) gives people a general right of access to information held by or on behalf of public authorities, promoting a culture of openness and accountability across the public sector.

a. What sort of information can I request?

In theory, you can request any information that the Practice holds that does not fall under an exemption under the FOI Act. You may not ask for information that is covered by the DPA 2018 under FOIA. However, you can request this under a Subject Access Request (SAR) – see section above ‘Gaining access to the data we hold about you’.

b. How do I make a request for information?

Your request must be in writing and can be either posted or emailed to:

Email: che.group@nhs.net

Post: Camden Health Evolution Limited, 2 Winchester Mews, London, NW3 3NP

15. Glossary of Terms

Common Law of Duty of Confidentiality – is not written out in one document like an Act of Parliament. Common Law is also referred to as ‘judge-made’ or case law. In practice, this means that all patient/client information, whether held on paper, computer, visually or audio recorded, or held in the memory of the professional, must not normally be disclosed without the consent of the patient/client. However, where the disclosure/sharing of the patient/client information is for the purpose of Direct Care consent to such disclosure/sharing may be implied where it is informed, given there is a legitimate relationship between the patient/client and the health professional.

Personal Data - means any information relating to an identified or identifiable natural person (‘data subject’); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

Special Categories of Personal Data – data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, data concerning health or data concerning a natural person’s sex life or sexual orientation shall be prohibited.
